Unclassified

Mission

USPACOM provides assistance to the governments of Indonesia, Sri Lanka, Thailand and other affected nations to mitigate the effects of the recent earthquake and tsunami in the Indian Ocean.

Conduct of operation is in support of USG lead agency, and in coordination with international organizations, non-governmental organizations and partner nations.

Unclassified

Operating Principles

- Tempo -- Begin movement and relief simultaneous with assessment.
- Leadership -- Host nation is responsible for its population and leads effort in its country.
- Unified action -- Military forces employed at direction of CSF. Military capabilities employed to satisfy priorities of USG lead agency/country team/host nation plan. Close and continuous coordination with all elements on the ground.
- Combined/Multi-national coordination -- Embrace other nations' military contributions and embed in CSF where appropriate. Leverage experience built through multi-national training and exercise program.
- Priority of effort -- US military focus on macro-level distribution and aid. Support host nation and relief agency detail-level expertise.
- End state -- Necessary assistance provided, host nation strengthened.
